

THE GEOMETRY OF SPIRITUAL TRUTH

INTRODUCTION

Truth exists and can be proven geometrically.

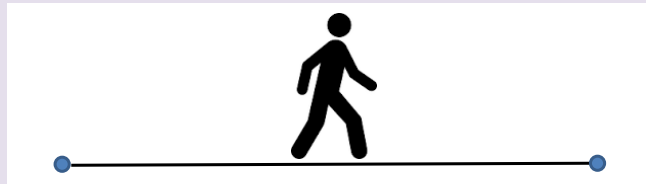

We cannot see '**Truth**' with our eyes. That is why all '**Truth**' is '**Spiritual Truth**'. We cannot see the number '1' but we believe it exists. We cannot see a point on a line but we believe it exists. Even the most basic self-evident '**Truth**' exists by faith alone. Euclid, the father of all geometers, generated his amazing conclusions based on only five postulates (axioms) that could not be proven, that had to be accepted on faith that they were true. For example: 'All right angles are equal to each other'.

Using our own set of axioms (definitions of self-evident truths) we will make the connection between the mathematics of Geometry and the unseen spiritual realities of God, Man, and the Universe. Like Euclid, we will then use logic to deduce spiritual insights into the unseen spiritual nature of things.

THE BASICS

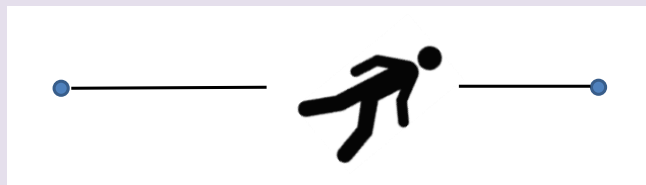

We will take the existence of points, lines, planes, as self-evident truths and attempt to use them to prove spiritual things to you. Such things are the alphabet of the language of God in mathematics.

Axiom One: **A Straight Line between Two Points is 'True'**

There is no proof for axiomatic things. There is only the inner witness that senses correctness. The core inner sense of **trustworthiness** consists of two things: something is straight and unbroken.

Lemma One: **A Straight Line between Two Points with a Gap is 'False'**

It follows logically, and also to our common sense, that **if a line between two points has a gap**, it is **untrustworthy**. It may be straight, but it is broken. Therefore it is '**Not True**'. Anything that is '**Not True**' can also be called '**False**' or '**A Lie**'.

According to human nature, there is a **moral dimension** associated with '**Truth**' and '**Lies**'. Typically humans categorize whatever is '**True**' to be '**Good**'. Similarly, humans categorize whatever is '**A Lie**' to

be **'Bad'**. Human beings make a direct connection between **Beliefs** and **Morals**. All humans have a **belief system** upon which they live their life. A **belief system** consists of all the unseen things a person judges to be **'True'** (for them). Most human beings strive to live within their belief system, to follow their beliefs. To do otherwise, they would condemn themselves as being a **'Bad Person'**.

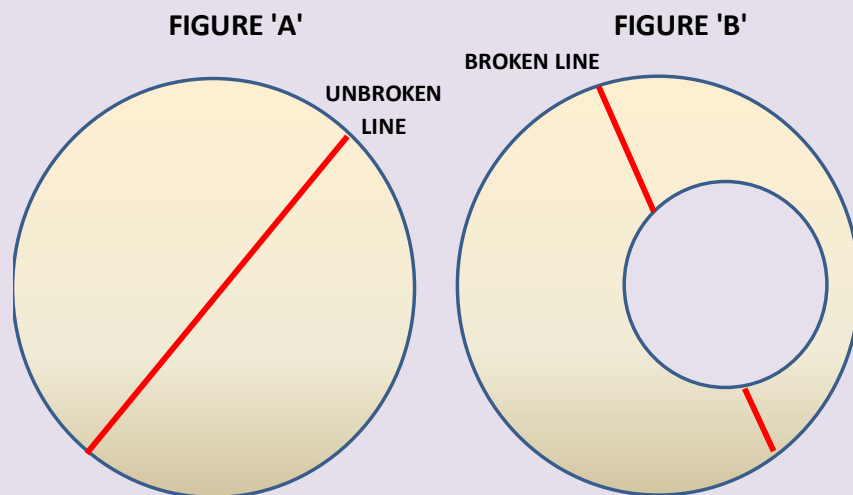

The human tendency to make moral judgments of right and wrong exists because God gave man a conscience. The New Testament explains this phenomenon:

"Gentiles [all non-Jewish people]... are a law for themselves, even though they do not have the [Mosaic] Law, since they show the requirements of the Law are written on their hearts, their consciences also bearing witness, and their thoughts now accusing, now defending themselves." (Romans 2:14-15)

TWO DIMENSIONS

Objects in two dimensions obey Axiom One. We will expand the observation made by Axiom One in one dimension (a straight line) to Figures (collections of points) in the two dimensional plane:

Lemma Two: **If all straight lines between any two points within a Figure in two dimensions can be connected without a gap, then that Figure is 'True'.**

By our axiom, Figure A is **'True'**, and Figure B is **'False'** or **'Not True'** or a **'Lie'**. By extension of our God-given human capacity to judge things based on their **'Truth'** we can also conclude that Figure A is **'Good'** and Figure B is **'Bad'**. Perhaps this is where the expression **'Your argument has holes in it'** came from!

THREE DIMENSIONS

If we permit ourselves to imagine three dimensional objects, and if we define 'Figure' to mean any collection of points in three dimensions, then Axiom One applies in that case also.

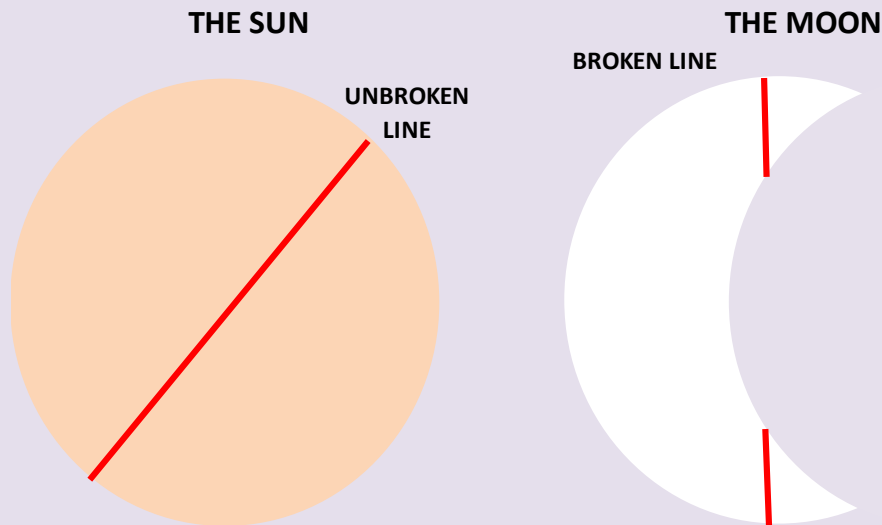

Lemma Three: **If all straight lines between any two points within a Figure in three dimensions can be connected without a gap, then that Figure is 'True'.**

ALL TRUTH HAS A SHAPE, AND ALL SHAPE IS A TRUTH

Did you ever notice the Universe that God made and put Man into is full of shapes?

From our perspective looking up at it the **Sun** is a circular solid. The **Moon** changes constantly from being a slim crescent to being a circular solid then back again. The **Stars** are points of light.

Let's examine the shape of the Sun and the Moon and draw conclusions using Sacred Geometry.

According to Axiom One – The **Sun** is '**True**' and the **Moon** is '**False**'. Every straight line between two points on the Figure of the **Sun** connects without any gap. In the case of the **Moon**, we can find two points that (at certain days of the month) cannot be connected by a straight line.

The **Sun** gives light so that we can see. The **Sun** gives warmth sufficient for plants to grow to produce food for us. Everything about the Sun is '**Good**'. In comparison, the light from the **Moon** is barely enough to keep us from stumbling over objects in the dark. The **Moon** is weak compared to the **Sun**: **untrustworthy**. In the black and white world of spiritual '**Truth**' any grey area is automatic disqualification from 'Goodness'. We must conclude the Moon is '**Bad**' according to Axiom One.

God made the shape of the Sun and the shape of the Moon to communicate spiritual truth to Man.

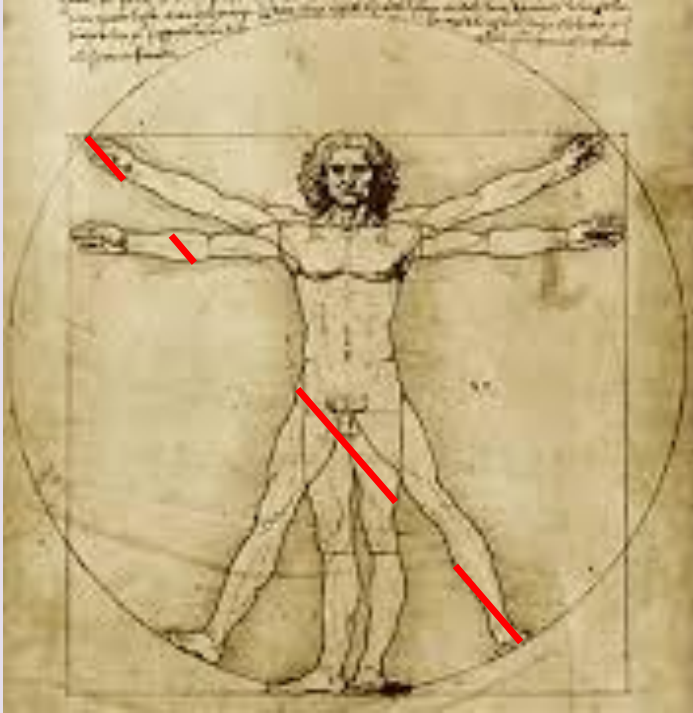

Axiom Two: **All shape is a truth, and all truth is a shape.**

Axioms cannot be proven. However, we can provide evidence. Using the astronomical dimensions of the **Sun** and the **Moon** relative to the **Earth** (and Bible Numbers to understand those numbers), we show the spiritual meaning of the Sun is: '**The Holy Spirit**'; and the Moon is: '**Religion**'.¹ God is a living being who through the Holy Spirit created the Universe and gives every creature its life and its breath: God is '**Good**'. Religion is a dead thing that only reflects light and cannot give life. Religion is '**Bad**'.

THE NATURE OF MAN

Man has a shape. Philosophers have debated the question: Is **Man** basically '**Good**'? Or, is **Man** basically '**Bad**'? That question is easily answered by looking at the shape of **Man**:

Interestingly, in Da Vinci's famous drawing of a **Man** he compares the frame of his **Man** to two shapes: a Circle and a Square.

It is very evident from the drawing that **Man** might attempt to attain the 'goodness' of the geometry of a circle or of a square – but **Man** does not succeed.

There are many points in the figure of a **Man** where when a line is drawn between them leaves a gap outside the figure.

Based on Axiom One: **Man** is '**Not True**'. Connecting this fact with our natural human moral association, **Man** is '**Bad**'. Look how much philosophical debate we saved by using Sacred Geometry!

Scripture agrees with our conclusions:

"There is no one righteous, not even one. There is no one who understands, who seeks God. All have turned away; they have together become worthless; there is no one who does good, not even one."

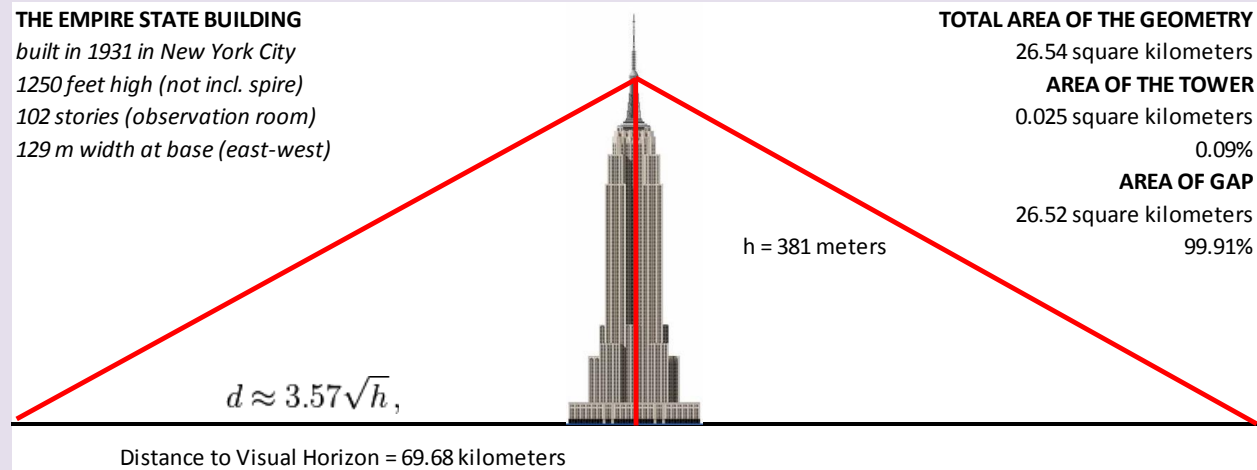

"Their feet are swift to shed blood; ruin and misery mark their ways, and the peace of God they do not know. There is no fear of God before their eyes." (Romans 3:10-18)

The **Fetus** raises another question. Everything within the **Gestational Sac** is part of the unborn child not the mother. Using Sacred Geometry we therefore conclude that the **Unborn Child**, although it is a living human with a human shape, is '**Good**' geometrically speaking, when we take all the points within the **Gestational Sac** as the figure. It is true that the Bible says: '**Behold, I was shaped in iniquity; and in sin did my mother conceive me.**' (Psalm 51:5). Yet, the Bible also does not admit a child held guilty of sin until '**it knows the right hand from the left**' (Jonah 4:11). When the 7 day old baby of Bathsheba died David acknowledged the child would go to heaven (2 Sam 12:23). So once again Sacred Geometry agrees with the Bible.

HIGH PLACES, TOWERS, INSOLENCE OF MAN

The Earth is a sphere, but it is a very large sphere so that from a human's perspective in a local place, it appears to be flat. We will look at **Towers** and **High Places** from God's perspective. The taller a feature is, the more gaps there are in the lines connecting it to the Earth:

Skyscrapers are built into the Earth. Their foundations are deep underground. Therefore they are considered in Geometry as part of the Earth. An animal such as a sheep or a man that roams on the Earth is not attached to it, and in Geometry is assessed as a collection of points on its own. {Does our detachment from the Earth and others suggest personal accountability?}

God considers **Towers** reaching to the sky to be offensive to Him. In the human perspective this is nonsense. But in Sacred Geometry it makes sense. As the figure above proves, if we connect lines from the top of the **Tower** to the end of the visual horizon and consider the **Tower** plus the part of the Earth visible from it as a geometry there is 99.9% gap and only 0.1% solid. Very '**Not True**'!

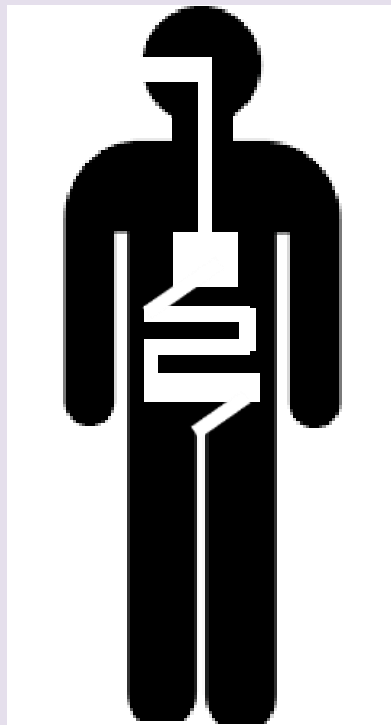

*“And they said, Go to, **let us build us a city and a tower, whose top may reach unto heaven; and let us make us a name**, lest we be scattered abroad upon the face of the whole earth. And the LORD came down to see the city and the tower, which the children of men built. And the LORD said, Behold, the people is one, and they have all one language; and this they begin to do: and now nothing will be restrained from them, which they have imagined to do. Go to, let us go down, and there confound their language, that they may not understand one another's speech. So the LORD scattered them abroad from thence upon the face of all the earth...”* (Genesis 11:4-8)

God does not wish for man to seek self-sufficiency and self-exaltation. God's wish for man is to be our sufficiency. David wrote: *“**The LORD is my rock, and my fortress, and my deliverer; my God, my strength, in whom I will trust; ... my high tower.**”* (Psalm 18:2)

LOOKING AT MAN – AS A THREE DIMENSIONAL GEOMETRY

Man is not a two dimensional figure like DaVinci’s drawing. Man is a three dimensional figure. We will now look at Man in three dimensions.

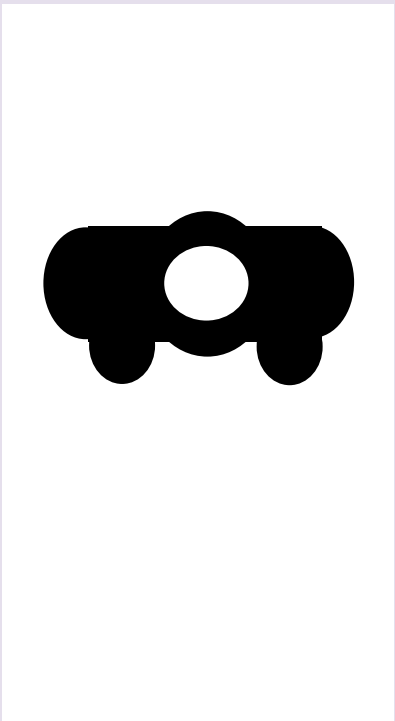

Behold! **Man has a hole!** There is a passage that starts with the mouth and continues through the throat, the stomach, the small intestine, the large intestine, then right out the back end.

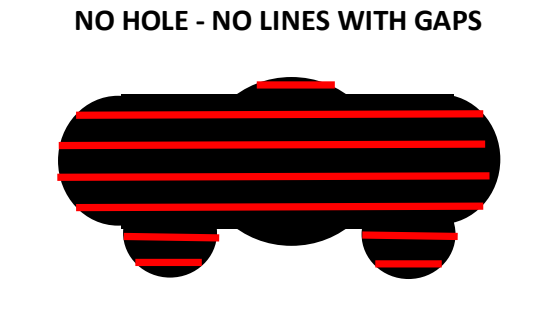

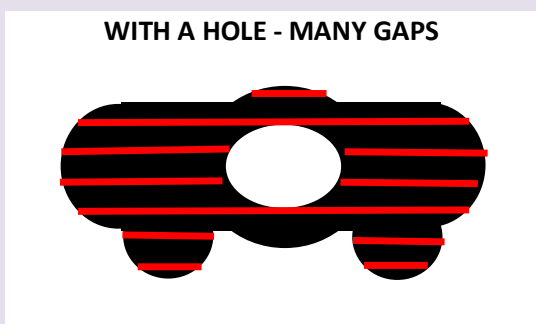

The diagram on the left is the view of Man’s geometry looking through the flesh to the cavity that exists in the digestion tract.

The diagram on the right is the view of Man’s geometry looking down from above. All the internal organs and passages are not perfectly aligned, but if they were the geometry of Man would look as it does on the right.

We have exaggerated the size of the hole for purposes of illustration.

This is very significant for geometric purposes. A man with a hole inside him has more transverse lines within his shape with gaps, than a man with no hole inside him.

According to Axiom One: Lemma Three (for three dimensional figures), a man with a hole (on the left immediately above) is **‘Not True’** or **‘Bad’**. The Man with no hole (on the right immediately above) is **‘True’** or **‘Good’**.

SALVATION BY FAITH IN JESUS CHRIST

Looking down from above as God would see him, Man has a hole: Man is a Sinner. This geometric insight agrees with Scripture concerning the condition of Man in connection with the **mouth** he uses for filling his **stomach** with food and the evil that proceeds from his **lips**:

“All the labour of man is for his **mouth**, and yet the **appetite** is not filled.” (Ecc. 6:7)

“Laughter [of the **mouth**] is foolish, and what does pleasure accomplish?” (Ecc. 2:2)

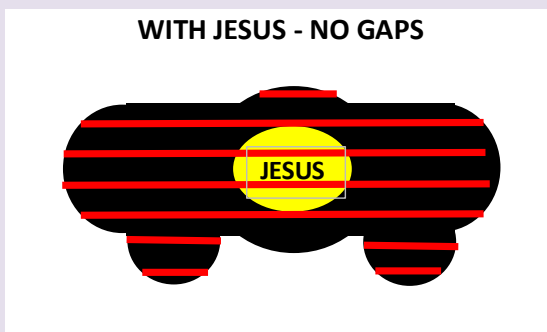

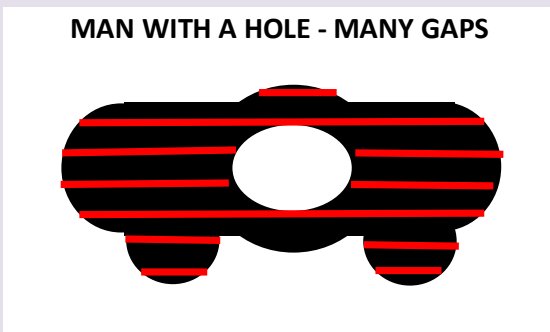

“A fool is consumed by his own **lips**... his words are folly... wicked madness” (Ecc.10:12-13)

“The **tongue** is a small part of the body but it makes great boasts” (James 3:5)

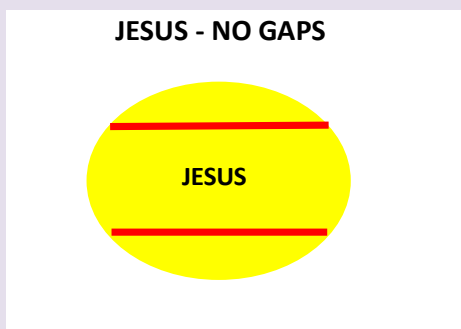

“...no man can tame the **tongue**. It is a restless evil, full of deadly poison.” (James 3:3)

According to the wisdom of the ancients, the **mouth** and the **stomach** (and by extension the entire internal passage within man) provide proof of the sinfulness of man. Man without God is carnal and driven by desires of his flesh. Even worse, Man demonstrates with curse words and judgments of other people that Man without God is earthly, devilish, and wicked.

Man has a hole. Man is ‘**Not True**’! Man is ‘**Bad**’! Sacred geometry and Scripture agree. How can Man fill his hole? How can Man stop being ‘Bad’? Man needs Jesus – “in his heart”.

Jesus is sinless; Jesus is ‘**True**’ geometrically; Jesus can fill the empty hole in Man. When we believe Jesus died to pay for our sins – the Holy Spirit enters us – JESUS is revealed IN US.

“...the **MYSTERY** that has been **KEPT HIDDEN** for ages and generations, but is now disclosed to the saints. To them God has chosen to make known the **GLORIOUS RICHES** of the mystery: which is **CHRIST IN YOU**, the **HOPE OF GLORY.**” (Colossians 1:26-27)

THE GEOMETRY OF WATER AND ICE

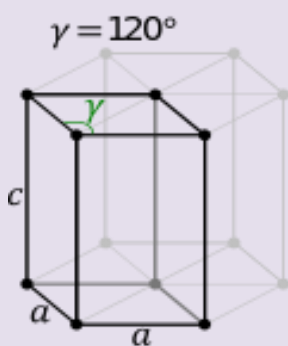

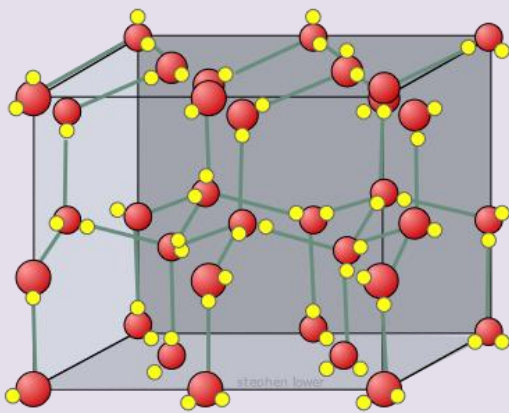

Water can take three forms: vapor, liquid, and solid.

Liquid water is unstable – it takes the shape of whatever object it is in – water is formless. In other words, liquid water has no geometric shape at all. Water as a liquid is chaos.

“Now the earth was formless and empty, darkness was over the surface of the deep... And God said ‘Let there be light. God saw that the light was good, and he separated the light from the darkness... And God said ‘Let there be an expanse between the waters to separate water from water.’ So God made the expanse and separated the water under the expanse from the water above it.” (Genesis 1:2-7)

According to what we are told light is good² – darkness is bad. Shape is good – formlessness is bad. There is also a distinction between water above (good) and water below (bad). We will take it that the water below is the liquid water, chaos, formlessness (bad).

What about the geometry of ice? Ice floats above liquid water – therefore ice is one of the forms of ‘**water that is above**’. Solid ice can take a number of forms depending on the pressure and temperature. But the form of ice in the earth’s biosphere is hexagonal:

Ice forms a hexagon of atoms: one hexagon on top of the other. Within the hexagon there are three water molecules high and three water molecules low – in a see-saw shape – arranged in a circle.

The angle between atoms in the ice lattice is 106.6° versus 104.45° in liquid water.

The red spheres are the oxygen atoms and the yellow spheres are the hydrogen atoms.

Ice forms into a hexagonal crystal solid. According to Axiom One, this geometric structure is ‘**True**’. All straight lines between two points have no gaps.

The ‘**water that is above**’ is ‘**Good**’. The ‘**water that is below**’ is ‘**Bad**’: just as the Bible teaches.

Man is 55% to 78% liquid water!

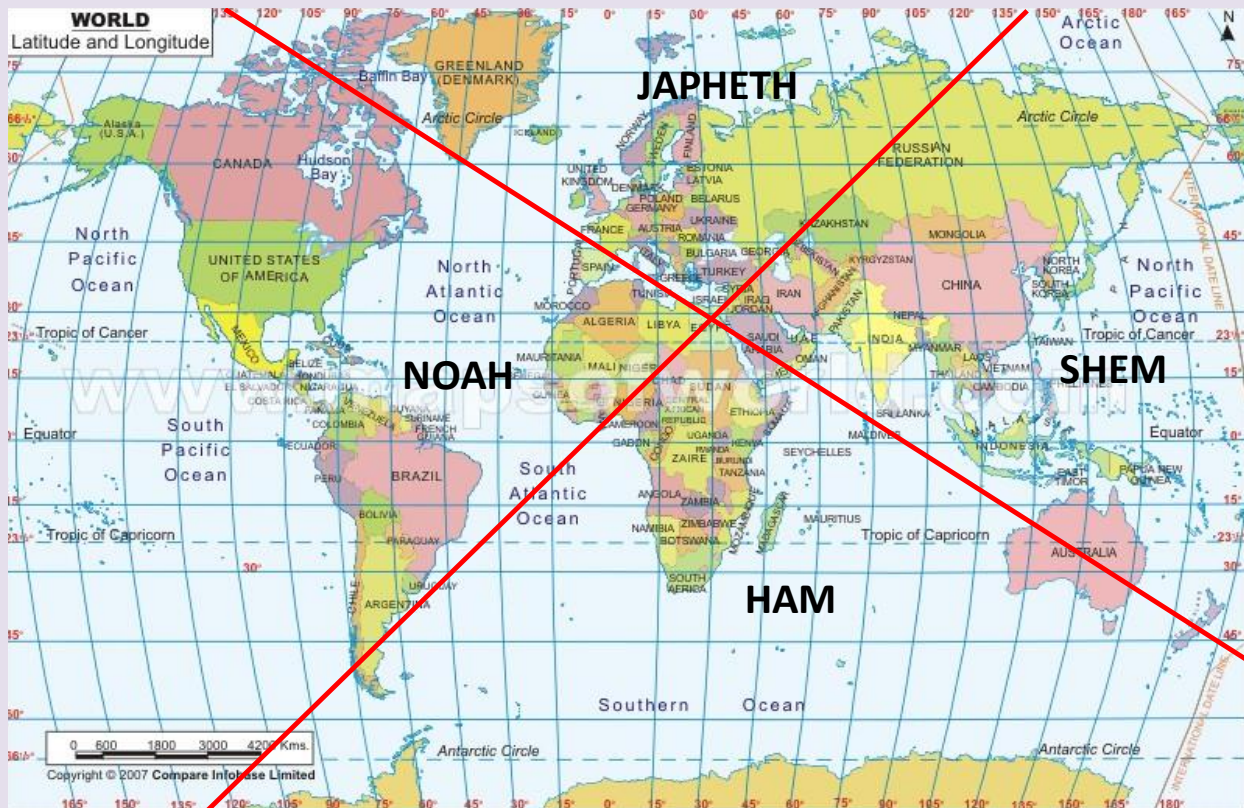

² Light travels in a straight line – more evidence in the Bible to support Axiom One: ‘A Straight Line Between Two Points is True’. God says: ‘Light is Good’. Axiom One: ‘A Straight Line Between Two Points is Good’ (restated).

DIVISION OF THE EARTH BY LINES

The Bible says “And unto **Eber** were born two sons: the name of the one was **Peleg**; because *in his days the earth was divided*: and his brother's name was **Joktan**.” (1 Chron. 1:19)

We are going to assume that **Peleg** lived in the days of the **Tower of Babel**. Our interpretation is the ‘**earth was divided**’ between **Ham, Shem, Japheth**, and **Noah** in accordance with the will of the LORD to scatter the nations into tribes with sovereign boundaries. In order to establish such a huge division of land on the earth it was necessary to pick a clear boundary marker. In ancient times boundaries were marked by heaps of stones (see Genesis 31:45-55). Therefore it is only logical to assume the boundary marker chosen would have been **the Great Pyramid** since it was the most awesome ‘heap of stones’ in the known world. It also has divine origin³.

The map below shows the division of the world according to the sons of Noah with the Great Pyramid at Giza being the central boundary point of the four realms:

Note: due to the curvature of the earth the lines drawn on the map above will not be exact.

³ See Page 12 GIZA on our website www.biblenumbersforlife.com The evidence of the divine origin of the Great Pyramid is based on the theological and prophetic significance of the measurements of the internal passages which we thoroughly document. The death of Christ, the Age of Grace, the Great Tribulation are all there in great detail.

RELIGIOUS SITES LOCATED ON THE GIZA LINES

Three of the world's largest religions have their main temples on the Giza world division lines.

TYRE (Lebanon) – Pagan Temple

45°22' NE (531 km) 101% on Line

MECCA – Temple of Kaaba (Islam)

45°33' SE (1,289 km) 101% on Line

ST. PETER'S (Rome) – Catholic Church

43°29' NW (2,133 km) 97% on Line

Note: distances are over the curved surface of the earth. Angles are taken from the initial bearing at GIZA.

NB The star in Cyprus means nothing.

Axiom Three: The Longest Straight Line in a Geometry is a Measure of its Degree of Truth

We cannot prove axioms, we can only consider evidence. We assume the lines from GIZA were God-given divisions of the earth. Religion tries to erase these lines. All three temples cut an earth line from Giza short. The reason religions do this is because they want **TO CONTROL PEOPLE**, i.e. to subvert national sovereignty, **BY UNHOLY ALLIANCE** with the rulers of lands.

But the lines are of different length. The shortest line is the line to the **Pagan Temple in Tyre** of which much was written in the Bible concerning the evil of that place and the King there (see Ezekiel chapters 26, 27 and 28). The shortest straight line = the least truth. Paganism says there are many gods. Paganism teaches men to sacrifice to idols. **PAGANISM is a HUGE LIE**.

The line to Mecca is the next longest. ISLAM says it venerates the prophets of the BIBLE, but ISLAM rejects the words of those prophets. ISLAM teaches Jesus is the Messiah, but does not teach that Jesus is alive in heaven and will return from there. Most importantly, ISLAM does not understand the way we can be forgiven sins is by Jesus' death. **ISLAM is 'NOT TRUE'**.

The line to St. Peters is the longest. But this line still cuts the truth down from 12,000 km (half way around the world) to 2,133 km. Catholicism says it accepts the BIBLE. But Catholicism perverts the gospel and turns the grace of God into a religion of works. Instead of praying to Jesus who is alive in heaven, Catholics say prayers to dead saints. **CATHOLICISM is a LIE**.
